

Piney Ridge Timber Frames has been designing and building beautiful timber frame homes for over 15 years. Our outstandingly artistic homes are constructed of simple post and beam structures, which are carefully placed for the most appeal, yet practical structure. Our team of experienced planners, designers and craftsmen have one common goal in mind: to provide personal attention and detailed quality work to all of our customers. Together, we can work with you to help build that home or addition you've been waiting for. Our homes are durably built with great warmth and character. By continuously improving our pre-planning, architecture and woodworking skills, our team always provides the latest and most adapt service in the industry. Our award winning staff works with you side by side to ensure your home is just what you've been waiting for. At Piney Ridge, we create exceptional timber frame homes that not only warm the heart and soul but capture the imagination with their unique character.

Custom Homes

Piney Ridge Timber Frames offers flexible options for creating a custom home that will suit your needs and lifestyle. We construct a wide variety of custom designed timber frame homes. Whether you are looking for a traditional timber frame home or something more contemporary, our full service staff will help you achieve your goals. You can select a specific design to build your home or we can combine several design ideas and create an individualized custom design. We will work closely with you in order to achieve the look and feel that you desire.

Once you have agreed upon a design, we will begin cutting your frame. You are always welcome at Piney Ridge Timber Frames, either as an observer or in some cases a participant. Once your frame has been erected, the final phase of construction can begin. We offer panel installation as well as other finishing touches to include timber frame porches, entryways, cupolas and stairways.

Our homes are all warranted for life and our staff is always on call for any service needs, should they arise. Whether you prefer to work with us to plan the architecture and interior design of your new home or choose from our existing floor plans, Piney Ridge will provide consistent quality construction throughout the building phase to deliver the finest timber frames homes available today!

Additional Services

We can provide timber frame interior and exterior improvements and enhancements to your already existing home or dwelling, while adding unique character and style. Interior improvements can be done to almost any existing floor plans and instantly change the entire look of your home. This process is similar to building a custom home in that these additions are also done with great care by our professional craftsman.

We will work within your budget restraints in order to construct the renovations or additions that you desire. First, you may meet with us to design a plan if you do not already have an idea in mind. You can also choose from our portfolio of existing designs and floor plans to compliment your home.
